

Your day may start with an espresso and end at yoga, but in between is a to-do list a mile long. Rock star that you are, you get it done. (A little focus never hurt anyone.)

Locus is the seat for you.

You don't sit on the Locus Seat. You lean into it. When you do, your body is supported in a neutral position. This award-winning ergonomic seat is designed to adjust to every move you make, while maintaining equilibrium between your back and abdominal muscles.

The result? As you work your body is effortlessly active. Circulation increases. Major muscles are relaxed yet engaged. It's the perfect balance between sitting and standing.

American-made wooden base. Optional anti-fatigue mat. Designed and built in Rhode Island.

Seat cushion options:

Seat base laminate options:

Locus Seat shown in Glacier White with Chili Pepper seat cushion. Optional anti-fatigue mat not shown.
