

# Evolution MOUSE-TRAK by ITAC Systems: User Manual

Your MOUSE-TRAK Trackball has been designed with user configurable features to improve your efficiency. The default configuration is as follows (keys are numbered from left):

Key 1:	Scroll Key
Key 2:	Logical Key 1 (left key) single click
Key 3:	Logical Key 1 double click
Key 4:	Logical Key 1 Click and Drag
Key 5:	Logical Key 2 (middle key) single
Key 6:	Logical Key 3 (right key) single

Pressing Keys 1 and 6 for 2 seconds causes the MOUSE-TRAK to enter program mode where you can reconfigure your MOUSE-TRAK. Press Keys 2 and 5 to confirm entering program mode.

Step 1 - Select key to program (press key)

Step 2 - Select function to be assigned :

Key 1 -	Logical Key 1 (left key)
Key 2 -	Logical Key 2 (middle key)
Key 3 -	Logical Key 3 (right button)
Key 4 -	Special Functions ( <b>go to 3B</b> )
Key 5 -	Left hand default (reversed)
Key 6 -	Right hand default

Step 3A - Select Operation

<u>Press</u>	<u>To Cause</u>
Key 1 -	Single Click
Key 2 -	Double Click
Key 3 -	Click and Drag
Key 4, 5, 6	Reserved for future use

**Step 3B** - For Special Functions:

<u>Press</u>	<u>to Cause</u>
Key 1-	Speed Mode Toggle
Key 2 -	Scroll Mode Toggle
